Anand Krishna

Lead AI Scientist, Poiro · Bengaluru, India
anandkrishna1995@live.com · anandkrishna.me

I lead Data Science & AI at Poiro. Previously a Postdoctoral Research Fellow at the National University of Singapore, and a Prime Minister's Research Fellow in the Department of Computer Science and Automation at the Indian Institute of Science, where I completed my Ph.D. under Prof. Y. Narahari and Assoc. Prof. Siddharth Barman.

Experience

May 2025 — Present
Bengaluru, India

Lead AI Scientist AT Poiro

Leading Data Science & AI. Poiro builds AI systems and agents that supercharge marketing workflows and bring brands closer to consumers.

- AI systems trained on a brand's structured and unstructured marketing data — social content, marketplace data, first-party customer data — to build a knowledge representation of the brand and its category.
- Agents that run analytics and data-science workflows over that representation to produce actionable insight and guide marketing execution.
- Used by brands to identify content whitespaces, target creative and creator recommendations at ROI, and audit creator risk before commercial commitments.

Nov 2024 — Apr 2025
Bengaluru, India

Research Consultant AT Walmart

Developed scalable systems for real-time advertiser query processing to estimate impressions.

Sep 2023 — Sep 2024
Singapore

Postdoctoral Research Fellow AT National University of Singapore

School of Computing, working with Prof. Vincent Y. F. Tan.

- Online learning and optimization under adversarial corruption, including the LEARN invex loss for outlier-oblivious online convex optimization (UAI 2026).
- Extended p-mean welfare objectives from social choice to stochastic bandits, unifying average and Nash regret in one algorithm (AAAI 2025).
- Sample-efficient alternating minimization for robust phase retrieval, published in IEEE Transactions on Information Theory.

Aug 2018 — Aug 2023
Bengaluru, India

Prime Minister's Research Fellow (PMRF) AT Indian Institute of Science

Ph.D. in the Department of Computer Science and Automation, advised by Prof. Y. Narahari and Assoc. Prof. Siddharth Barman.

- Approximation algorithms for fair division: Nash social welfare and p-mean welfare under subadditive, XOS, and dichotomous valuations.
- Results published at ESA 2020, IJCAI 2022, WINE 2022, and ITCS 2024.

Jun 2019 — Sep 2019
Bengaluru, India

Research Intern AT IBM India Research Lab

Jun 2018 — Jul 2018
Bengaluru, India

Research and Development Intern AT Aindra Systems

Education

2018 — 2023

Ph.D. in Computer Science

Indian Institute of Science

Department of Computer Science and Automation. Advised by Prof. Y. Narahari and Assoc. Prof. Siddharth Barman.

2017

B.Tech (Honours) in Computer Engineering

Government Engineering College, Thrissur

Teaching

Jan 2021

Probability

Dayananda Sagar University · Instructor

Aug – Dec 2022

Computational Methods of Optimization

Indian Institute of Science · Teaching Assistant

Jan – Jun 2020, 2021, 2023

Game Theory

Indian Institute of Science · Teaching Assistant

Feb – Jun 2021

Randomized Algorithms

Indian Institute of Science · Teaching Assistant

Aug – Dec 2019

Linear Algebra and Probability

Indian Institute of Science · Teaching Assistant

Awards & honours

Apr 2023

Best Presentation Award, EECS Research Students Symposium

Indian Institute of Science

Feb 2023

Best Poster Award, Annual PMRF Symposium

Prime Minister’s Research Fellowship

Feb 2023

Selected for Commendable Research by PMRFs in Computer Science & Engineering, Data Science, and Mathematics

Prime Minister’s Research Fellowship

Jan 2023

Visiting researcher with Prof. Warut Suksompong

National University of Singapore

2020

EC’20 Global Outreach Program and EC Mentoring Workshop

ACM Conference on Economics and Computation

Academic service

SUBREVIEWER

FOCS 2024 · APPROX 2023 · WWW 2023 · SOSA 2023 · WWW 2022 · SAGT 2021 · WINE 2020 · WINE 2019
